Sherene Carter
Web developer

About Me
My career the past several years has been that of a middle-school teacher. I am grateful for the experiences that I have had and know they will shape my career in the future. Becoming a Full-Stack Software Developer has not been easy. There have been many challenges along the way. But I am here to prove to my students (and myself) that you. can. do. hard. things! Perseverance will help you to conquer! I am looking forward to this journey of growing as a full-stack developer.

Education
2021 • Boise CodeWorks   Full-Stack Web Developer Student
2006 • University Nevada Las Vegas   Master of Science in Curriculum & Instruction Emphasis in Technology Leadership
